## Glove Question

This is something for you to consider, whether you want a kid, golf, cashmere or fleeced, but the main idea is a GOOD GLOVE and that is what you can find at this store. Those two words hardly describe them; they are good in every conceivable way; material, make, finish and warmth.

KID GLOVES, tan, gray and black, two clasp, the best of kid is put into these, \$1.00, \$1.25  
DOG SKIN, extra heavy, very durable, \$1.25  
MOCHA GLOVES in all shades, a very warm glove, \$1.00  
ARABIAN REINDEER, black tan and gray, silk lined, \$1.50  
LONG KID GLOVES in black, tan, gray and white, with clasp or button, 12 button length, \$2.75 16 button length, \$3.00  
FABRIC GLOVES in excellent quality, Electa Fleeced in brown and black, inflexible, fast color, mileause cashmere, 25c.  
GOLF GLOVES in all colors, fancy knit, 25c, 38c, 42c. and 50c.  
CHILDREN'S WOOL GLOVES in all colors, 25c. and 50c.  
LADIES' WOOL MITTENS, fancy knit, some with bows, 25c, 37c, 50c. 75c.  
LADIES' SILK MITTENS, very pretty, with bows, \$1.00  
CHILDREN'S MITTENS, 15c. and 25c.  
BOYS' HEAVY MITTENS in brown and gray, 25c.

### IN TENDER MEMORY

Of Miss Sarah L. Hall.

To the friends who had held her in their sympathetic arms during these years shadowed by hopeless illness the knowledge that the spirit had been released from the weakened body brought rather a feeling of triumphant exultation than any sense of sorrow.

The two who were nearest her could know nothing of the sting of death, which is regret. She had been wrapped about by a largeness of devotion that left no helpful dead undone, no loving wish unfulfilled.

Through the beautiful funeral service there was carried the same note of exultation. Here had been a brave life, rich in devotion to duty. She had bravely shouldered, and nobly borne heavy responsibilities in days when women had not entered fields of activity to which they now move freely.

Her great joy had been in the blossoming of the musical and artistic talent with which the sister to whom she had given a mother's devotion was so richly endowed. She had been the loving regard of all who knew her.

Then had come the years of feebleness when she could no longer minister to others, but was ministered unto with unflinching gentleness.

To the friends who sat about her as she lay that day in the unspeakable dignity of death, serene and sweet and low, it seemed that all those years of weakness had slipped away and she was again as when she came and went among us. Thronging memories of those days made her more potent than any other presence. It was not as if she had been taken, but rather given to us again. And one went out from that home into the autumn sunlight with a renewed appreciation of the faithfulness and love that so generously enriched it, and with a clearer vision of the nobleness of the promise of a stronger faith in the promise of a life to come.

### COLUMBIAN CLUB.

The first meeting will be held at the President's home on Friday afternoon, Nov. 1st at three o'clock.  
Mrs. Gehring extends a cordial invitation to all interested in history, art and literature to be present and help arrange the program for the coming year, which will interest all.

The presence of our young ladies, who have left school life is especially desired.

### RESOLUTIONS.

Whereas, God in His mysterious way has taken from our Lodge our brother Benjamin Bacon Jr.

Resolved; that as a good citizen has gone to his rest it reminds us that we too are journeying that way, and should ever be ready for the final summons.  
Resolved; that as he was somewhat of a stranger to most of the members of our Lodge, we take the liberty of quoting the words of a member of Norway Lodge, "He was a brother faithful to three things; his family, his church and the Independent Order of Odd Fellows."

Resolved; that these resolutions be spread upon our records, that we extend to the family our sincere sympathy, and to Norway Lodge our grateful thanks for their kindness to our brother, that a copy of these resolutions be sent to the Bethel News for publication and in sympathy our character be draped for thirty days.

S. I. French,  
R. A. Skilling,  
P. L. Edwards.

### CARD OF THANKS.

We desire to extend our heartfelt thanks to friends who so freely assisted us and for kindly words spoken during our recent bereavement.

Mrs. Clara J. Grover,  
Lettie L. Thayer,  
Mr. and Mrs. Melvin L. Sturtevant,  
Stella M. York,  
Hansel G. York.

### WORK HAS BEGUN.

Ground Broken For Soldier's Monument.

More or less has been said during the past few months about a soldier's monument to be erected in the town of Bethel. The work has so far materialized that the soil was broken yesterday afternoon.

At 2 o'clock the members of the Brown Post and the ladies of the Relief Corps met at the site where the monument is to be erected. Mr. E. C. Bowler, President of the Monument Association, called them to order, and after a few remarks, called on Comrade A. S. Chapman who offered prayer, following which the comrades with their own spades removed the soil preparatory for the foundation; nor did the comrades stop to work for each of the ladies present had a hand in the matter.

It was an occasion of joy mingled with sorrow. Some twenty old members of the Brown Post, who have long wished that a monument might be erected to the memory of the boys who went out from Bethel and offered their lives in defense of their country were there, rejoicing that the glad day had dawned when they were to realize and know that a fitting memorial to their memory is to be erected and yet pained as they were reminded of the bitter scenes of the past together with the thinking of their ranks.

We all rejoice that a monument is to be erected, which is not only a lasting memorial for the soldier boys who went out from Bethel, but shall be a constant inspiration to the generations to come, toward a high and noble civilization.

MAINE FESTIVALS WILL CONTINUE

And Professor Chapman Will Wield The Baton.

With prolonged applause and cheers Prof. William H. Chapman was greeted at a largely attended and enthusiastic meeting of the Portland festival chorus held in the Y. M. C. A. hall last week.

who it was unanimously voted not to accept the resignation of the popular director, to whom, the success of the past eleven festivals has been due. The Assurance were given that a guarantee fund of not less than \$2,500 will have been raised within a few weeks, and this will relieve Prof. Chapman of many duties which he rightly believes do not belong to him, thus allowing him to give more attention to the actively musical part of the festival. Portland will have a twelfth festival next year without a doubt.

It was suggested by Mrs. Chapman, who was accorded fully as generous a measure of applause as her husband, that the chorus give a cantata during the festival, a part of the proceeds to be for the benefit of the chorus, and that another entertainment be given in the evening so that the interest may be kept up. Both she and Mr. Chapman thought that to work continually with but one end in view—the festival—was not the most desirable thing, and their views met the approval of all present. It was decided that it would be a grand idea to invite all the members of the church choir in the city to join the chorus and arrangements will undoubtedly be perfected whereby they will not be required to attend every rehearsal, which would be exceedingly difficult for many of them.

Professor Chapman, who had offered his resignation as director of the chorus, was called upon, and in an unhesitating address, reviewed the work of the festival during the past years and touched upon the detail work necessary.

WASTE AND WANT.

Easy for Farmer to Lose Much Feed by Poor Feed Box.

Recently I was at the home of a  
friend who, although a hard-working  
and in many respects a good farmer,  
does not seem to be getting rich very  
fast. We were at the barn, and I went  
in the stable. He has those old-fash-  
ioned V-shaped mangers, open at the  
top, and the horses had pulled their  
hay out, scattered it all over the  
stable and tramped it into the manure.

At the present excessively high prices  
for feed of all kinds it would not take  
them long at the rate they were going  
to waste a good many dollars, says a  
writer in Farm and Home. If I were  
feeding my horse that I don't believe I  
could sleep nights.

It suggested the folly of feeding  
roughness of any kind so that stock  
can pull it down and waste it. The  
open manger is an abomination. The  
old-time rack is no better. With  
either the stock are free to waste as  
much as they feel like, and there are  
some horses and cattle which seem  
to take a joy in pulling or throwing  
out their feed. The best feeding con-  
trivance for hay that I have ever  
seen was made as shown in the il-  
lustrations. There is never any  
waste here. The greatest objection  
I had to it was that in feeding corn

**THE FARMER BOY.**

Temper the Work to His Strength  
and Let Him Have His Play Time.

Every farmer desires to keep his  
boy at home as long as he can do so,  
that he may thus live a protected life  
as long as possible. This is right. It  
is a mistake to permit the farm boy  
to launch out for himself at too ear-  
ly an age. The father of the boy  
must remember that the muscles of  
the boy are not hard like his own and  
that he cannot do the same amount of  
work as he himself can do, with  
equal ease. The muscles of a grow-  
ing boy are soft, for they are con-  
stantly being increased in size by the  
addition of new material.

Many farm boys are driven from the  
farm by too hard work. They are  
made to take the place of a hired man  
at a very early age and the father  
often forgets that they have not the  
same indifference to pleasure as his  
self. The boy needs a good deal of  
recreation and a chance to mingle  
with other farm boys. The farm boy  
should have a fair chance at the pleas-  
ures of childhood and youth, as the  
city boy has. His work should be  
carefully limited.

**APPLES AS HOG FOOD.**

Windfalls Can Be Profitably Harvested by the Pig.

I have had considerable experience  
in feeding windfalls from the apple  
orchard to hogs, writes a farmer in  
Farm and Home. I allow my hogs to  
run in the orchard with the apples  
begin to drop heavily. If the crop is  
small, then I begin to pick up  
waste fruit for other, drier, or apple  
better. I feed to the hogs the parings  
and all the fruit that I cannot use.  
The following qualities of apples seem  
to be best for my animals to eat  
and do well.

In addition to consuming waste  
fruit and a great many inferior in-  
ferior, the hogs root over the ground  
and keep it well stirred. This is very  
beneficial to the soil and is about the  
only method of cultivation I practice.  
When waste apples are in good  
condition the hogs are in good  
condition for feeding on corn, oats,  
potatoes or buckwheat meal. Because  
of their thrifty condition induced by this  
excellent food, they put on fat very  
rapidly and are ready for marketing  
at almost any time.

**SLKATS AND SQUEALS**

A fat hog is not always healthy.

A number of facts are necessary to suc-  
cess with sheep.

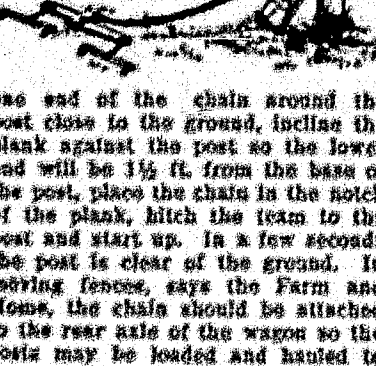

The motto of the shepherd should  
be, "Keep the sheep in good condition."  
The motto of the sheep owner should  
be, "Keep the sheep in good condition."  
The motto of the sheep owner should  
be, "Keep the sheep in good condition."

**PULLING FENCE POSTS.**

A Hard Task Made Easy by Use of  
Plank and Chain.

An easy and practical method of  
pulling posts, by which all digging  
and hard labor is eliminated, is  
shown in cut. Take a plank, 1 ft.  
wide, 4 ft. long, and make a V-shaped  
notch at one end, hailing on several  
crosspieces to prevent splitting. This  
plank is used to change the hori-  
zontal draft to the vertical. Place

**HE SIGNED HIS NAME.**

Story of Frank Matten When He Be-  
came Postmaster General.

"Frank Matten was a great stickler  
for details," said a former representa-  
tive of congress who had been in  
Washington when Mr. Matten was  
postmaster general the other day, "and  
when he entered the cabinet the lat-  
ter part of Arthur's administration he  
carried this habit with him. He let it  
be known among the heads of bureau  
and divisions that he proposed to fa-  
miliarize himself with the business of  
the department until he had grasped  
all the details of the work over which  
he presided."

"The second day at his desk the ven-  
erable colored messenger who attended  
him brought the usual large bundle  
of letters to be signed. It was a pile of  
typewritten copies, indeed thick. The  
messenger placed them before Mr. Mat-  
ten and, with a blinding pad in hand,  
stood waiting for the signature, as he  
had done for Mr. Matten's predecessors  
since Hayes' time. The first letter was  
a long one on a topic with which the  
new postmaster general was not fami-  
liar and so formal, legal and involved  
that even reading did not make the  
meaning clear. Mr. Matten hesitated,  
winked his forehead and moved to himself.

**POINTS.**

A hedgehog—the neighbor who  
won't keep up his fences—Farm Jour-  
nal.

Some farmers find great advantage  
in sowing rye at the last working of  
the corn. Might try a patch.

The manure spreader has depressed  
the number of rich barnyards and in-  
creased the number of rich soils in  
stead.

**Need Affairs in Fall.**

On account of the more abundant  
growth of weeds and grass in the  
spring and early summer, late sowing  
of early fall sowing of alfalfa is re-  
commended by the Pennsylvania In-  
stitution. If the land is not  
sown during the early part of the  
season and needed to be sown in July  
or August, late sowing, so far as the  
establishment of the young plants is  
concerned, will be about equally ap-  
proached.

**Don't Break the Hammer.**

Look out! You'll break that hammer  
handle trying to pull that rusty nail  
out the hard way. You're driving it  
into the wood, then it will come out  
way out, get a bit of hard wood and  
drive the head of the hammer for a few  
inches. Now drive it through.

**The President Farmer.**

"He doesn't have to tell his story,"  
the way President says of a neigh-  
bor who is nothing more than a  
puffed-up farmer.

**LUNGS THAT ARE LAZY.**

Their Surface Becomes Sticky and  
Cottony with Age.

Fresh air is a life-giver. It is the  
most important of all things that we  
can do for our lungs. It is because  
by it. No one would expect to have a  
good lung just because a pair of bellows  
hang on a wall by the chimney, but this  
is exactly what many people expect of  
their lungs, which are really only the  
bellows given us by which to keep the  
fire of life burning bright and clear  
within us.

It is not too much to assert that lungs  
properly used in a comparatively clean  
room will do more good than any lung  
in an open field. This trick of lung  
lungs is a habit, like any other, and  
may be overcome by persistent effort.  
Many persons, for example, are affec-  
ted with a nervous habit of holding the  
breath unconsciously. These are the  
people who, in spite of plenty of time  
spent out of doors, yet "catch cold easily,  
digest poorly and are always more or  
less "under the weather" physically.

Many other persons—and they consti-  
tute the great majority of mankind—  
breathe only with the upper part of the  
lungs and although they may breathe  
regularly do not draw in sufficient air  
to breathe to fill all the lung cells.

When once the careless habit of  
poor, shallow breathing has been bro-  
ken up, the health undergoes such mark-  
ed improvement, there is such brighten-  
ing of the spirits and improvement of  
the looks, that the luxury of deep  
breathing is not likely to be readily  
forgotten.

A good way to start the new habit is  
to take deliberately a few minutes at  
stated intervals and devote them to  
proper breathing. If this is done sys-  
tematically, the reformer will find him-  
self unconsciously breathing more and  
more, until very soon he is enjoying na-  
ture and really breathing to live.

Besides the gain in the general health  
which comes from the habit of deep  
breathing there is created a reserve  
strength and preparedness which is  
often of great service in warding off  
acute pulmonary diseases.—Youth's  
Companion.

**Some Painting Needed**

What kind of paint will you use? Can you be sure of getting it?  
So few paints are reliable—so many are not. It's costly to have  
paint "chalk off," fade or peel soon after the bill is paid. Save  
money and uncertainty by using **PORTLAND PAINTS**. They  
have a reputation to uphold, and the makers a name to protect.  
**PORTLAND PAINTS** wear equally well on interior work or ex-  
posed surfaces. They are durable. Sun, rain and wind cannot  
blister, wash or fade them. And they are economical to apply.  
Work easy under the brush and spread evenly. Your dealer will  
show you our sample sheet, con-  
taining 48 durable colors for every  
class of work.

**Rivers Which Prove the Ocean.**

In the ocean the longest way round  
is the shortest way home. For  
instance, if a United States transport  
were to leave San Francisco for China,  
the most logical course would be to  
be swept west across the North Pa-  
cific to the land of the Rising Sun.

But in reality the ship would be  
swept east past the Philippines to the  
Asian coast. This course would be  
several hundred miles longer, yet it  
would take the vessel to her destination  
much quicker than the logical course,  
in the one case she would be going  
with the current in the other she  
would be going against the current.

### GILEAD.

Miss Margaret Forbes with her young friends were treated to a very enjoy- able frolic on Saturday afternoon. At half past one twelve of the young people started from the village for a straw ride, with Mr. Ralph Penbody as driver.

They drove around through Shelburne, stopping at Mr. Albert Larys where the party was conducted by Miss Madeline and Mr. Don. Lary to the dining room tastefully decorated with autumn leaves, where was spread a bountiful feast to which the hungry, merry young people did justice. They re- turned their homeward way with cheer and shouts of jollity. This was a good- bye frolic for some of them, as Miss Margaret expects soon to join her par- ents in her new home in New Sharon.

A NATION OF CRIPPLES RHEUMATISM BEYOND CONTROL.

The Only Hope to Rheumatic Suffer- ers is Urin-O Treatment.

If Rheumatism continues to spread as it has in the past few years, it would seem as though we would before long become a nation of cripples. The ter- rible destructiveness of this disease is apparent on every side of us. Almost nine out of ten of the cripples one meets had their afflictions brought on by Rheumatism. How many thousands are there that are hopelessly bed ridden and whom we never see. Rheumatism from the very nature of the disease can never cure itself and if neglected is bound to grow worse instead of bet- ter. If you ever have any twinges of Rheumatism go to your druggist and get a bottle of Urin-O, the wonderful new Rheumatic Specific. It will cure you and is the only treatment in the world that will cure you permanently and thoroughly. Urin-O cures by its direct action on the muscles, blood and kidneys. It breaks out the poisons Uric and Rheumatic acid and drives it from the system and it is only a treatment of such a nature that will cure Rheuma- tism. Urin-O is sold and personally rec- ommended in Bethel, by W. E. Besserman.

There was never a case of Rheuma- tism that Urin-O could not cure and you should not put off taking it. You can test Urin-O free of charge if you wish. Just cut out this advertisement and send it to the South Drug Co., 210 South Bldg., Syracuse, N. Y., together with your name and the name of your druggist, and state that you have never used Urin-O and would like to try it. They will give you free, through your druggist, a 75 cent bottle, which you can test and try to your own satisfac- tion.

Urin-O is sold and personally rec- ommended in Bethel, by W. E. Besserman.

to insure annual success.

The members were reminded that it has developed upon him to manipulate the entire machinery from the first to the last and that a director, to be at his best and to do his best, should not be obliged to attend to every detail in connection with the successful carry- ing out of the work in regard to the Chorus and Festivals. He suggested that a committee should be appointed to do the detail work and that funds should be raised to pay the expenses of these committees. He also stated that his own remuneration in the past had not been sufficient to make him wealthy but that much of his own traveling expenses in connection with his work had been borne by himself, and he finally informed the people that unless a change be made his resignation must stand.

Following Professor Chapman's ad- dress several prominent members of the association were called upon and were very enthusiastic in their purpose to perfect some plan whereby Professor Chapman can remain Director of the Festivals and be relieved of the drudg- ery which he has hitherto been obliged to bear.

### MUCH CONCERN FELT.

Ordinary Methods for Treating Catarrh Prove Unsuccessful.

Recent statistics showing an increase in catarrh have shaken the confidence of medical men in the usual prescrip- tions to safeguard human health from the ravages of the disease.

When stomach dosing proved ineffec- tive, it was natural to look for some other treatment, and it is believed that in Hymel as absolute cure for all cat- arrhal troubles has at last been found. Breathed through a neat pocket inhaler, its healing medication reaches every spot where there are catarrhal germs, destroys them, prevents their future growth, and soothes the irritated mu- cous membrane so that relief is felt almost instantly, while lasting cure is practically sure to follow.

The complete Hymel outfit costs but \$1.00, and is sold by H. S. Pashard un- der an absolute agreement to refund the money if it does not give satis- faction. It is the only cure for catarrh that has ever been sold under a guar- antee to cost nothing unless it cures, but H. S. Pashard has so much faith in its power to cure all catarrhal troubles that he is willing to take the risk, so if Hymel does not help you, there will not be a penny's expense. Get an outfit at once on this liberal plan.

**SAVE THIS ANYWAY.**

Here is a simple home-made mixture as given by an eminent authority on Rheum Diseases, which makes the statement to a New York Daily News paper, that it will relieve almost any case of Rheuma trouble if taken before the stage of Rheumatism. He states that such symptoms as lame joints, pain in the chest, frequent desire to urinate, especially at night, painful and discomforted urination are real rheum diseases. Here is the recipe, try it:

Small Extract Sassafras, one ounce; Canada Sassafras, two ounces; Compound Sassafras three ounces. Steep a teaspoonful after each meal and at bedtime.

A good reason for going late to a doctor is the possibility that those legions of old humors and evils may be removed by taking within a little time. This matter has a peculiar bearing upon something often upon the entire body and its various structures, and often determines the worst forms of Rheumatism in just a little while. This mixture is said to remove all Rheum diseases and cure the inflammation by forcing the kidneys to filter and cleanse from the blood and system all acids and food decomposed waste material, which cause these sufferings. You if you can't wait have the preparation

### SHE DOES.

To see her go with eyes aglow  
An' 'twixt a purring' to a crew,  
Her 'red head in her mother's tight  
Across the hill an' 'out o' sight.  
With her short legs a-tradin' glad  
Off down the road away from dad.  
Glad to go visitin' out far  
To grandma's an' the cocky jar,  
Is now more sly! A better sight!  
Far too, though, when it's comin' night  
Is to look off across the gloam  
An' see my baby tradin' home.

Hand in her mother's just as she  
At mornin' trudged away from me.  
Lookie! the same, exceptin' that  
She's got some blannets in her hat.  
An' hot a dirty face, an' got  
A bunch o' wittid blossoms an' dot  
In her small hat for her old dad.  
Ah! a grin on her face, just glad  
To see me!

## Cooking-Ranges

### What Our NEW TYPE of Range Means

Maintaining the Crawford reputation for progress, we have constructed a new type of range which is better than even our heretofore best. In this new design the main and awkward Kind Hearth is omitted. The ashes are disposed of by falling into a HOD far below the fire, which makes their removal easier and the grates last longer. The Coal and Ash Hods are side by side, of the same size, and the Ash Hod being emptied can be refilled full of coal. There is also more room on top of these ranges. The "Palace" is extra large size and the "Castle" smaller.

ALL the famous Crawford Ranges are present: Single Burner, Patented Grate, Open Joint Oven Floor, Ashless-Washed Grate, Improved Oven Indicator. Send for our booklet.
